

# Staying safe **TOGETHER**

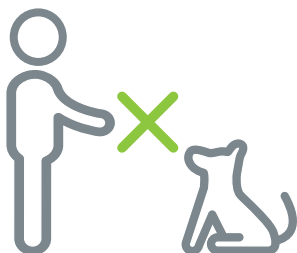

Our veterinary hospital has precautionary measures in place to help ensure the safety of clients, pets, and our veterinary team. Please help us protect everyone's health during the COVID-19 pandemic. When we're healthy, we can help keep your pets healthy.

**Schedule your appointment before you come.** While we always do our best to handle emergencies, we may not be able to take walk-ins right now.

**Obey all signs and instructions** for social distancing, use of masks, and building entry.

**Don't approach others at the hospital** – our staff, clients, or other pets – unless you're specifically asked to do so.

**Be patient if you experience a delay.** We're working hard to see every pet in a timely manner – and give each of your pets the great healthcare you depend on from us. COVID-19 makes that a little more complicated, for us as well as for you. With kindness and empathy, we'll get through this together.
